Location: India

PROFESSIONAL PROFILE

Highly motivated and results-oriented Full Stack Web Developer with 3.5 years of professional experience designing, developing, and maintaining scalable web applications. Expert in frontend precision and robust backend architectures with primary specialization in PHP, Laravel Framework, JavaScript, and MySQL database engineering. Proven track record of architecting complex systems including Multi-Level Marketing (MLM) platforms, automated financial modules, and custom CRMs. Additionally competent in full-stack JavaScript technologies like Next.js for high-performance React applications when required.

TECHNICAL SKILLS

Frontend Development - HTML5, CSS3, JavaScript (ES6+) - Bootstrap & Modern UI Layouts - UI/UX Design & Prototyping - Responsive Web Design & Cross-Browser	Backend Development - PHP & Laravel Framework - REST API Development & Architecture - Authentication & RBAC Authorization - Payment Gateway Integrations
Database Technologies - MySQL Database Management - Relational Database Design - Query Optimization & Indexing	Secondary & System Competencies Next.js & React.js: Experienced in building component-based modern UI modules and server-side rendered apps. - MLM Software, CRM & Custom Admin Panels - Git Version Control & App Security

PROFESSIONAL EXPERIENCE

Freelance Full Stack Web Developer January 2023 – Present (3.5 Years)

Core Stack: PHP, Laravel, MySQL, JavaScript, Bootstrap, Git (Additional: Next.js/React)

- Architecture & Engineering:** Designed, developed, and deployed robust full-stack web applications, ensuring high availability, scalability, and optimal mobile responsiveness.
- Complex Business Logic:** Engineered comprehensive Multi-Level Marketing (MLM) platforms, writing optimized algorithmic logic for real-time binary/generational rank management, automated commission distribution, wallet balances, and reward structures.
- Financial & Automation Systems:** Built secure Return on Investment (ROI) and investment management modules featuring automated daily calculations, financial ledger logging, and scheduled task tracking.
- Dashboard & UI/UX Development:** Created intuitive administrative and client-facing dashboards featuring real-time cryptocurrency tracking data, interactive data visualizations, and detailed transactional reporting.
- Security & Optimization:** Implemented strict role-based access control (RBAC), secure authentication protocols, and optimized database schemas, reducing query execution times and bolstering application security.
- API & Integration:** Developed and consumed complex RESTful APIs; integrated third-party payment gateways and external data feeds seamlessly into core business logic.
- Client Management:** Collaborated directly with international clients to perform comprehensive requirement analysis, scoping, agile execution, and continuous application maintenance.

AREAS OF EXPERTISE

Full Stack Development

Backend Architecture

FinTech & MLM Solutions

Database Modeling

UI/UX Design

API Integrations

Responsive UI Engineering

Custom Enterprise Systems

PROFESSIONAL STRENGTHS

- Analytical Thinking & Problem Solving
- Client Requirement Analysis
- Clean Code & Attention to Detail
- Fast Learning & Adaptability
- Time & Freelance Management

LANGUAGES

- **English:** Professional Working Proficiency
- **Hindi:** Native or Bilingual Proficiency
